## Strikers Blockade Tracks

Striking members of the United Brotherhood of Carpenters and Joiners of America (U.B.C.J.A.) pile logs and railroad ties on a track leading from the John Morrell packing plant at Ottumwa, Iowa, in an effort to stop removal of meat from the plant. The car of meat (right) later was permitted to continue its trip after strikers were warned interstate commerce laws had been violated by the block. (AP Wirephoto)

### Czech Plane Comes Down at Munich

#### Passengers Revolt in Air. Lock Pilot in Toilet, Retrace Route

Munich, April 8 (AP)—Twenty passengers aboard a Czech transport plane revolted April 7, forcing the pilot to land at the city of Garmisch, Germany, authorities said today.

The Czech National Air Lines plane, with 26 aboard, landed without warning at an American beach resort.

The plane was en route from Prague to Bratislava, Slovakia, according to Czech Consul Karel Dvorak, and the pilot was forced at gunpoint to leave the controls and was locked in the plane's cockpit.

A former Czech pilot, who once flew with the British Royal Air Force, took over the controls. The plane did not take off on its route to Bratislava.

When the plane landed at the beach resort, passengers, together with a local police force, took control of the plane and the pilot, and released him to the American authorities.

Six persons, including the plane's captain, and a woman, said they wanted to go back to Prague. They said they had used visas for travel to Germany.

Twenty of the transport still is at Neuberg. It was assumed the plane would remain there until the pilot was sent from Czechoslovakia to Bratislava.

Travelers' statement dispelled a report of the Soviet-owned German news agency last night that the plane had been forced down by American agents.

## State Tax Office Hours Are Changed

Office hours have been changed for the representative of the New York State Department of Taxation and Finance who arrived at the county home on Wall Street earlier this week to aid citizens in the preparation of their state income tax returns.

It was announced today that hours for Wednesday and Thursday will be from 8:30 a. m. to 9 p. m. and on Saturday, Monday and Tuesday from 8:30 a. m. to 5 p. m. On the first day for filing returns, Thursday, April 15, the office will remain open until midnight.

## Treasury Receipts

Washington, April 8 (AP)—The report of the Treasury April 6 receipts: \$269,800,000; expenditures: \$269,800,000; balance: \$1,428,200,000. Receipts for April 6: \$269,800,000; expenditures: \$269,800,000; balance: \$1,428,200,000. Receipts for April 7: \$269,800,000; expenditures: \$269,800,000; balance: \$1,428,200,000. Receipts for April 8: \$269,800,000; expenditures: \$269,800,000; balance: \$1,428,200,000.

## Leader of Volunteer Arab Army Demands Jews Surrender or Be Killed

By CARTER L. DAVIDSON

Jerusalem, April 8 (AP)—This holy city, already short of food and torn by civil strife, was threatened today with a critical water shortage.

An official announcement said one water supply source, "for the time being, is interrupted." British Mayor Richard Graves appealed to the city's 160,000 inhabitants to use tap and cistern water sparingly.

An official but reliable source said Arab attackers had severed a water pipeline from Ras El Ein, 12 miles northeast of Tel Aviv, Jerusalem's second water source. Arab forces, it is reported, are restricted by lack of fuel oil for pumps.

The pipeline parallels the mountainous Jerusalem-Tel Aviv highway, scene of bitter fighting for three months.

A Jewish convoy of about 50 trucks, the second in three days, arrived over that highway today with food for Jerusalem's 100,000 Jews. The Jewish militia Haganah provided the escort.

Arabs intensified efforts to dislodge Jews from Kastal village, overlooking the highway five miles west of Jerusalem. Haganah occupied the village Saturday because Arabs had attacked Jewish convoys from it.

By unofficial tally, 2,428 persons have been slain in Palestine since the United Nations voted for partition last Nov. 29.

Haganah sources said Jewish forces had killed seven Syrian fighters and wounded a score or more in attacks on war parties crossing the border of northern Palestine near the Jordan headwaters.

Demands Jews Surrender  
Fawzi Bey Al Knujki, commander of the Arab volunteer army, told a correspondent last night in his northern Palestine headquarters:

"I am sending this ultimatum to the Jews: Surrender or we wipe you out."

He did not say how he would send it.

In Tel Aviv, Dr. Emanuel Neumann, American Zionist leader, said yesterday the United States proposal for a Palestine trusteeship is in some ways worse than the 1939 British white paper limiting Jewish immigration into the Holy Land.

Speaking before the Zionist General Council, he said the proposal in effect is "an Arab state in Palestine under international protection, with the implication that there should never arise a Jewish state."

Calls for U. S. Troops  
In the British House of Lords, the Archbishop of York said last night the U. S. should see that troops are sent, "if necessary a force of Americans, to save Jerusalem from destruction."

The plan by the Most Rev. Dr. Cyril P. Garbett came a little before the lords gave second-reading to the bill.

## Congress Pushes Air Force Drive; Action Is Promised

### House and Senate Place U.M.T. Aside for Time Being; to Hold Hearings

Washington, April 8 (AP)—President Truman asked Congress today for an immediate appropriation of \$725,000,000 for expansion of the air forces.

The House Appropriations Committee, to which the President's request was directed, called a special meeting for this afternoon to consider the request.

It plans to report to the House next week a bill carrying the new funds.

The additional money is for use during the fiscal year starting July 1.

Big Drive Is On  
Washington, April 8 (AP)—Congress put added power behind the biggest and best air force drive today, temporarily shunting aside plans for universal military training.

The aerial expansion program moved forward in both House and Senate as lawmakers sought to balance manpower and money demands and yet provide the speed.

## 562,000 Men Are Idle As Result of Coal Strike

Pittsburgh, April 8 (AP)—A state-by-state check today revealed at least 562,000 workers were idle in the 25-day-old soft coal walkout.

The bulk of these were members of John L. Lewis' United Mine Workers—400,000 in the soft coal fields demanding \$100 a month pensions and nearly 25,000 eastern Pennsylvania anthracite miners who walked out this week in sympathy.

The other 137,000 were in related industries crippled by the continually increasing coal shortage. At least 70,000 railroaders were furloughed together with 45,000 steel workers.

Iron Age estimated that by the end of this week the coal walkout will have caused the loss of 600,000 tons of steel.

Pennsylvania had the largest number idle in related industries—about 25,000, not including the anthracite workers. Bethlehem Steel Corp. took the brunt of the cutbacks with 22,500 workers laid off at its Bethlehem and Johnstown plants.

Illinois listed 18,000 to 20,000 workers made idle.

West Virginia had 17,000, Alabama 13,500, Ohio 13,000, Virginia 11,600, New Mexico, 11,000 and Maryland 8,000.

Other states in which coal caused idleness ran 1,000 or more were New York 4,150, Indiana 3,700, Kentucky 3,500, Massachusetts 2,100, Utah 1,800, Michigan 1,500, and Tennessee 1,000.

There was a sprinkling of layoffs also in Colorado, Missouri and Wyoming, and several states with coal carrying railroads.

Every day brought new cutbacks in the steel industry.

Bethlehem Steel banked a fourth blast furnace at its Johnstown, Pa., plant, making four of seven idle. The firm said 13 of its 21 open hearths now are shut down.

One Bessemer converter had been taken out and 11 rolling mills were shut down, cutting production to 60 per cent of normal. The plant has 2,500 idle.

Bethlehem's plant at Lackawanna, N. Y., banked another blast furnace and shut down six open hearths and five rolling mills. This leaves three of the plant's six furnaces operating and nine of its 28 open hearths with operations at 50 per cent.

A spokesman said "if the strike continues, another sharp cutback in operations will be made in the next few days."

Carnegie-Illinois Steel Corp. cut off five more open hearths, making 22 closed at its Homestead, Pa., works. Another U. S. Steel subsidiary, the Tennessee Coal, Iron and Railroad Co., banked two more blast furnaces last night at Birmingham.

T.C.I. announced that its big Fairfield sheet mill will be idled.

## Next Move by Lewis Is Awaited; Goldsborough to Act April 12

### Judge Will Rule on Three Points; Contempt One of Items

Washington, April 8 (AP)—Joseph E. Moody, head of the Southern Coal Producers Association, said today he will file a charge of unfair labor practices against John L. Lewis' United Mine Workers.

Lewis Faces Choice  
Washington, April 8 (AP)—John L. Lewis faced the choice today of ending the 25-day coal strike or risking heavy contempt of court penalties for each day it continues.

There was little to indicate, however, that the United Mine Workers chief meant to comply immediately with the back-to-work order despite the contempt citation slapped on him late yesterday.

Top government officials said Lewis instead appeared to be digging in for a finish fight in the courts.

That fight is scheduled to start Monday before Justice T. Alan Goldsborough, the same judge who fined him and the union \$3,510,000 in 1946 for defying a similar court order. The fines later were cut to \$710,000 by the Supreme Court.

The government paved the way for a possible new contempt trial when it asked Goldsborough to order Lewis to "show cause, if any," why he and the U.M.W. should not be punished for ignoring the strike-end directive issued last Saturday night.

Goldsborough promptly signed the order, which also calls upon Lewis to say why he shouldn't be held in both criminal and civil contempt. This leaves any possible penalties entirely up to the judge. He could order a jail term as well as a fine if he found Lewis guilty.

Lawyers for Lewis accepted a copy of the contempt action barely two hours after the citation was issued.

Lewis had made no move to halt the strike since the first court order was issued by Federal Judge Matthew F. McGuire. Instead, his attorneys asked Goldsborough to dissolve the McGuire order on the grounds that it is unconstitutional. They argued that the 400,000 soft coal miners are free agents, striking because they want the pensions authorized by the 1947 contract.

Monday Is Important Day  
On Monday, Goldsborough will dispose of these three major questions:

1. Whether the McGuire order should be upheld;
2. If so, whether it should be continued on Page Three

## Brooklyn Man Dies When Car Crushes Him Against Tree

### Beer Salesman Was Visiting Friends at Samsonville; Coroner Orders Post Mortem

Lorence A. Radtke, 48, of 673 72nd street, Brooklyn, beer salesman, was fatally injured early this morning when he apparently tried to prevent his Ford car from rolling down a grade in the driveway of the Nygaard home at Samsonville. He was crushed between the car door and a tree while endeavoring to enter the car and pull the emergency brake. The car was not in gear when it started to roll.

Mr. Radtke, employed by the Lieberman Brewing Company, has maintained a summer home at Samsonville for 15 years.

Wednesday he registered at the Governor Clinton Hotel and last evening went to Samsonville to visit Mr. and Mrs. Claus T. Nygaard of Sheldon Hill, town of Olive.

About 1 o'clock this morning he left the house and shortly after Mrs. Nygaard heard a noise in the yard. On investigation she found Mr. Radtke pinned between the car door and the post of the car which was against a tree in the yard. The door of the car was wedged against a tree and Mr. Radtke's body had been crushed.

An ambulance was summoned and Deputy Sheriff Ray Winne and Joseph Haver were sent to the scene by Sheriff Smith to conduct an investigation. Mr. Radtke was taken to the Kingston Hospital but was dead on arrival. Coroner Arthur C. Chipp of Kerhonkson was summoned and with District Attorney Louis G. Bruhn and Sheriff George C. Smith an investigation was made. A post mortem was ordered by Coroner Chipp.

Mr. Radtke is survived by his wife, Gladys; two brothers, Andrew of Samsonville and Fred of Catskill and two sisters, Augusta of Brooklyn and Henrietta of Frederick of Bay Ridge. The remains were taken in charge by the Fairchild Funeral Home of Brooklyn and funeral arrangements will be made.

## Orders Further Study

Washington, April 8 (AP)—The Senate ordered further study today of bills to grant federal charters to Catholic, Jewish and Greek-American veterans organizations. Yielding to opposition insistence that such "segregation" action might impair national unity, the Senate voted yesterday to send the legislation back to the judiciary committee.

## Fog Delays Planes

New York, April 8 (AP)—Fog today disrupted domestic flight schedules at LaGuardia Field. Airlines reported that 13 domestic arrivals and 26 departures were canceled or diverted to other airports because of a 100 foot ceiling and three eights of a mile visibility. Some inbound transatlantic flights also were diverted.

## Coal Shortage Slows Train Service Locally on West Shore

The effect of the current coal shortage throughout the nation on railroad service became apparent today with an official of the West Shore Railroad revealing that local service has been disrupted to some extent by changes in schedules.

West Shore passenger train 7, which is scheduled to arrive in Kingston from Weehawken at 2:30 p. m. daily, is now arriving from "45 to 50 minutes late" due to the necessity of this train performing local service in New Jersey territory.

Train 8, which leaves Kingston for Weehawken at 12:35 p. m. daily, is also late arriving in Weehawken due to local stops similar to the westbound train. Passenger trains handling local service in the New Jersey area have been curtailed due to the coal shortage, thus making it necessary for the through trains to and from upstate to make all stops.

## Nebraska Primary Offers New Dewey-Stassen Test

### Hanley and Miller Are Heard on 6th Bard Plan Panel

#### Li. Governor Discusses Legislative Trends; Miller Emphasizes Merchandising

Excessive expenditures and pressure groups were stressed as evils in current governmental trends by Lt. Governor Joe R. Hanley last night in an address at the sixth Bard Plan panel in the high school auditorium.

Moderator on the program on "How to Do the Best Job With Your Sales Advertising and Merchandising," the speaker urged public interest in government and declared that, "This democracy will not be overthrown or destroyed by any nations or combination of nations. If it is destroyed, it will be from within."

Selling through merchandise display and other practices beneficial to manufacturers, wholesalers and retailers were emphasized by Nelson A. Miller, chief of the marketing division, Office of Domestic Commerce, U. S. Department of Commerce, the principal speaker.

The attendance was 318 persons. The program was opened by Dr. Edward C. Fuller, president of Bard College. Vincent G. Connelly, assistant district attorney, was chairman and Stanley Matthews, president of F. B. Matthews & Co., and Haskell Naigles, proprietor of the Rosenbaum Co., assisted in the question and answer period.

Mrs. Mildred Meskil, business consultant of the Women's Division, New York State Department of Commerce, outlined the work of her branch of the department with stress on the clinic programs such as that held in the city last October. Waldo Ehlman, Bureau of Distribution, N. Y. State Department of Commerce, again addressed the group and emphasized the importance of research to business men.

Among marked trends in government today, said Lt. Governor Hanley is that many feel that "the solution of most of our problems lies in the direction of expenditures and excessive expenditures of government."

"To a certain extent," he said, "there may be a foundation for this feeling, but there is a limit to expenditures for government, just as for private individuals."

Should Insist on Value  
The government should insist on getting full value for its money," and the people should appreciate that high state and national have no money of their own, and that being spent comes "directly or indirectly from the taxpayer's pocket."

Efforts for enactment of legislation by pressure, is another trend stressed by the speaker. Special interests have gained through

## Taft Also Will Move Into Spotlight as Well as Martin, Vandenberg

Washington, April 8 (AP)—Politicians sizing up the apparent Dewey shut-out in Wisconsin waited today for Nebraska's popularity primary to bring the Republican presidential race into possibly sharper focus.

The Cornhusker State's all-star show next Tuesday marks Gov. Thomas E. Dewey's first test of strength against Ohio Senator Robert A. Taft, who wound up a three-day personal appearance tour last night.

It also provides a new showdown between the New Yorker and Harold E. Stassen, the former Minnesota governor who romped off with the Wisconsin prize.

Dewey flew into Nebraska last night for a two-day speaking campaign, with Stassen likewise on hand for a final ballot drive.

In all, seven names will appear on the G.O.P. ballot, including those of Gen. Douglas MacArthur, second man in Tuesday's Wisconsin race, and Gov. Earl Warren of California, the fifth-ranked aspirant for the nomination.

The two darkhorses are Senator Arthur Vandenberg of Michigan and House Speaker Joseph W. Martin, Jr., of Massachusetts.

The result of the preferential balloting will not be binding, however, on the 15 national convention delegates to be picked the same day.

Dewey Still Leads  
Although Stassen won at least 19 of the Wisconsin delegates and Dewey had a chance to grab only one of the eight in the MacArthur column, the New Yorker still leads in the national race to date.

He can claim 108 of the 305 delegates picked out of a total of 1,094 to be chosen. Two more Dewey-inclined delegates were named in Oklahoma yesterday, adding to the 10 he got there.

## Hercules May Close Due to Coal Strike

### Other Industries Report No Curtailment of Activities

Area industries appear generally not to be affected by the coal shortage due to the current strike, it was learned through a brief survey today, but one industry indicated that it might be forced to shut down for at least a week.

The management of the Hercules Powder Company, Port Ewen, said this morning that it would know later today or tomorrow morning whether or not a growing shortage of coal would force a shut-down next week.

Several other manufacturing concerns queried, either reported that they used fuel oil or said they were not currently experiencing coal shortages.

The Eastern Tractor Manufacturing Corp., 36 St. James street, reported that it did not expect to be affected by the coal shortage and to date had experienced no resultant shortage in its steel supplies.

The management reported, however, that a growing shortage of coke at the Greenwich plant, may have some effects on operations there, if the strike is prolonged.

The management of C. A. Balz & Sons, Inc., 49 Greenwich avenue, said that it was "not at all" affected by the coal shortage to date, and the Universal Road Machinery Inc., 27 Emerick street, reported that it used coal only for heat, and was not worried about a shortage.

Electrol Inc., 85 Grand street, reported that fuel oil is used there and the plant was not affected and the U. S. Laclede Cart Mill, reported a "good supply."

The Kret Engineering Corp., 8 North Front street, also said it was not affected.

## French May Aid British, Americans

### Russian Leader Says British Violation Was Cause of Tragedy at Berlin

#### Plans 'Protection' Soviet Steps Will Be Taken to Cover Air Moves, He Says

Berlin, April 8 (AP)—Britain is again considering the use of fighter planes to escort its transports to Berlin, a spokesman said tonight.

The spokesman said Russia had replied unsatisfactorily to British protests over Monday's collision of a Soviet fighter and a transport arriving from London. Marshal Vassily D. Sokolovsky blamed a British traffic violation for the collision, and said the British version of the incident was a slander.

The spokesman said that the tone of Sokolovsky's reply indicated the Russians were not giving any assurances of safety for planes entering Berlin.

He said it seemed Sokolovsky's written reply appeared to weaken or erase oral assurances which had been previously given by Sokolovsky to British Gen. Sir Brian Robertson when the latter visited him Monday night to make a personal protest on the crash incident.

When asked in what light the British Government considered the Soviet reply to Robertson's note, the spokesman said:

"I cannot answer that. There are ladies present."

Blame Is Placed  
Berlin, April 8 (AP)—Marshal Vassily D. Sokolovsky today blamed a British traffic violation for Monday's British-Soviet plane collision.

The Russian military commander said that unless he was assured British planes will observe four-power flight rules, he intends to "take measures for the protection of the safety of air traffic over the Soviet occupation zone."

He turned down the idea of four-power investigation of the crash, which occurred on Berlin's outskirts and killed 15 persons. He favored an inquiry by a Soviet-British commission.

Sokolovsky stated his position in a reply to communications on the crash from his British counterpart, Gen. Sir Brian Robertson. He described the British version of the accident as slander. His letter was published in Tagliche Rundschau, official newspaper of the Soviet military administration.

Robertson said on his return here this morning from Duesseldorf that he intends to deal immediately with the Russian reply. He gave no hint of what he intends to do.

Arriving in Berlin at about the same time was Maurice Couve de Murville, one of France's top diplomatic negotiators. He is to meet ranking officials of the western allies and many believe negotiations for a closer linking of the French zone with British-American Bizonia are on tap.

Robertson, who delivered an address sharply critical of Communism yesterday in Duesseldorf, declined direct comment on Marshal Sokolovsky's note on arrival here.

The marshal's letter reversed the position he took Monday after the accident. At that time he expressed regret and assured Robertson the Russians did not intend to interfere with flights down the allied air corridor to Berlin.

Latest Interchange  
His communication was the latest interchange between Russia and the western powers since the Soviet military administration instituted rules April 1 restricting allied railroad traffic through the Soviet zone between Berlin and the western zones.

Western sources have interpreted these rules as an attempt to squeeze the western allies out of Berlin. The Russians have agreed to a four-power meeting to clarify the restrictions, but no date has been set.

Sokolovsky's letter said: "I hope that you will give necessary assurances of strict observance by British planes of flight rules."

**SAVE THE FORESTS**

This spring, the State Foresters and the Forest Service of the Department of Agriculture are conducting a nationwide program to reduce forest fire losses. And that campaign can be a success only if the public is made aware of the program and how to deal with it.

Fortunately, some progress has been made in dealing with the forest fire menace. In pre-war years, we average 210,000 fires in our forests, woods and range lands. Since the war, the number has dropped, and was 172,000 in 1945. But no one should accept these statistics as an indication the waste is unimportant. Last year, forest fires burned enough trees of saw-lumber size to build 85,000 3-room homes; and enough pole sized trees to provide a 12-month supply of newsprint for every newspaper in this country.

What causes forest fires? The experts have the answer to that, based on years of correlated experience. Only one in a hundred is the result of explosions, sparks from machinery, etc. A very few are the handiwork of arsonists. Less than ten per cent are started by lightning. And here is the big point: 90 per cent are caused by people—by the carelessness of the campers, hunters, travelers, loggers, farmers and the others who live in the forests, who work in them, or who visit them.

During the campaign, these and many other facts will be made available. Forest fire prevention, like any other kind of fire prevention, isn't a job for the "other fellow." It is a job for you.

Television seems to be a realization of the long-sought achievement whereby a seeker might see around three corners and through a thin stone wall.

**GERMAN DISMAL FUTURE**

Germany's military history is at an end. This is the view of an Austrian economist, Gustav Stolper, whose book "German Realities" has just appeared soon after his death. He does not mean merely that damage to German factories has taken away the power of making war. Even more important in the long run is the loss of German manhood in the prime of life. There are now only 29,000,000 men in Germany to 37,000,000 women, and the men are either lads or old men. This will ultimately bring down the population until, within one or two generations, Germany, instead of being second only to Russia, will be the fifth most populous nation in Europe. The Germans will be fewer than the Russians, the British, the Italians, and even the slowly increasing French.

France ceased to be the foremost European power when her population fell off relatively to other nations. Germany will undergo the same fate. The blood-letting of the two world wars has sealed Germany's doom.

The German motto was lately, "World power or downfall." The Nazis promised the first. The second is Hitler's heritage to his people.

**LESS CRIME HERE**

There was less crime in Kingston during the past year, in proportion to population, than in most of the nation's cities, according to comparative figures gathered by the Federal Bureau of Investigation from 1,079 cities.

The number of offenses handled by the Kingston police during 1947 totaled 183, equivalent to a rate of 640 crimes per 100,000 population. For all the cities surveyed the average rate was much higher, 1,688 per 100,000.

Under "offenses" are included the six chief types of crime. In Kingston larcenies led in number, with 132 reported. The other totals were burglaries, 18, auto thefts, 25, robberies, one, assaults, six, and murders, one.

The F.B.I. finds that there was a slight decrease in serious crime in 1947, the first drop since pre-war days. The rate is still very high, however. A real reduction will not come, according to J. Edgar Hoover, F.B.I. chief, until more adults recognize

# 'These Days'

**HOMOGENEITY**

Look at a 1938 map of Europe and compare it with a 1948 map. A process of assembling states into a universal state has been continuous during that ten-year period; also, the number of countries permitting representative government (what is so often loosely called democracy) has decreased.

Into the new universal state must be included: Albania, Bulgaria, Czechoslovakia, Finland, Germany (partly), Hungary, Poland, Rumania, The Soviet Union, the Baltic Republics (Latvia, Estonia, Lithuania), Yugoslavia. To these European countries must be added, as included in the Eurasian Universal State: Afghanistan; North China, including Manchuria; Korea, north of the 38th parallel; Mongolia.

The Eurasian Universal State possesses no linguistic, racial, religious, historical or economic homogeneity and must therefore be held together by force. There can be no other way. Non is it possible to suppose that any process of assimilation can be devised which can in any practical period of time achieve homogeneity. The Soviets therefore have adopted a policy of local autonomy so that an Uzbek may remain an Uzbek so long as he is obedient to his overlords. In a non-assimilable universal state of this type, representative government is impractical and dangerous. The public state exists because there can be no alternative to it.

As long as the Eurasian Universal State was confined within the boundaries of pre-war Soviet Russia, the ruling power dealt with people who had traditionally been accustomed to being mastered and ruled; who had no tradition of personal freedom and no philosophy of equality before the law. Once the Eurasian Universal State crossed the Bug River into Poland, it came into conflict with Western civilization as exemplified by an inherent assumption of personal liberty and resistance to the power of a ruling class. This conflict becomes intensified as the Oder River is crossed into Czechoslovakia and Germany and must meet defeat beyond the Elbe.

One of several political reasons for the ease with which the Eurasian Universal State conquered the countries West of the Bug without much military effort was the inability of Europeans to organize representative government on a simple two-party basis. They hope to arrange governmental responsibility with a multitude of political parties and by the use of proportional representation. This method, while appealing to the liberal mind, actually produces paralysis and gives power to minorities, often alien and unassimilable.

For instance, the Czech government, which the Eurasian Universal State so recently absorbed, including the following parties: Communist, Czech Socialist, People's Party, Social Democrat, Slovak Democrat, and two, the Minister of Foreign Affairs and the Minister of National Defense belonging to no party. In a word, there is not responsible party government. The country is not responsible to the constituent National Assembly, only 93 were of the dominant party, the Czechoslovak Communists, but they controlled the government. This minority in time affiliated the country to the Eurasian Universal State, which means a subordination of their people—in many respects a Western European people—to Asiatic concepts of the relation of subject to ruler, of man to the State. How long Prague can suffer the humiliations of Unga, it is difficult to say. But that is what has happened to it.

Westerners do not readily understand the process of self-destruction which has not formerly been a part of European civilization. Certainly, none of the 13 European countries listed in this article any longer permit any form, however primitive, of representative government, nor is personal liberty of any kind tolerated. These European countries have been restored to the Empire of Genghis Khan, whose heirs attempted to conquer the same territory—but were repulsed in Europe—to hold so many unassimilable people together.

Finally, there is this to learn from what is happening in Europe: namely, that homogeneous nations have a better chance of resisting absorption and spiritual annihilation than states which are composed of minority groups, particularly of such assimilable elements who resist. Social and cultural assimilation, however, may be elsewhere. France, for instance, is more capable of resisting an external foe than Czechoslovakia, Sweden or Yugoslavia.

**AVOIDING PNEUMONIA**

In every community there is a physician who has earned a reputation for curing practically all his cases of pneumonia.

In one particular community a general practitioner stated that as a rival first physician called every case of the common cold pneumonia and, as the common cold gets better with or without treatment, naturally he got the reputation of curing so many cases of so-called pneumonia. Another physician kindly stated that it might be wise for every physician to call his "cold" cases pneumonia as this would automatically send the patient to bed, and he could prevent the cold being followed by bronchitis, pneumonia and bronchopneumonia.

Since the sulfa drugs began to be used in pneumonia, there is a tendency to consider that pneumonia need not be feared any more as the death rate has been reduced from about 10 per cent to less than 2 per cent. However, if pneumonia were really conquered there would not be a death rate of even 2 per cent.

The reason that pneumonia is still feared by physicians is that it is now known that it may be caused by several different types of organisms—pneumococcus, streptococcus (which the sulfa drugs can destroy), the Friedlander's bacillus pneumonia which streptomycin can overcome, and the virus pneumonia which penicillin can now battle successfully.

Despite the fact that physicians now have these valuable drugs—sulfa, streptomycin and penicillin—the history of pneumonia is that on the one hand the patient, likely to have further attacks, each attack reducing the body's general resistance against pneumonia and other diseases.

While there is no vaccine, serum, toxin, or other method of preventing pneumonia, it is a known fact that careless health habits, overwork, overtiredness all predispose to pneumonia. It is by going to bed at once at the first sign of a cold or rise in temperature that the patient has his best chance of avoiding pneumonia.

their responsibility to youth and their responsibility as citizens. "In these days of uncertainty," he said, "the American people must realize that if we are to be strong internally every effort must be directed toward making the people of this nation more law-abiding."

# Close Ups

By UPTON CLOSE

**Skeletons**

They tell on themselves!

The diary writers, trying to justify their part in the most vicious war in history, have told much on themselves.

"Good gray" Cordell Hall would have no part of the busy little huddle of political smoothies who (he admitted) always surrounded Roosevelt; but still he exposed the fact that from the very first year of his great power as secretary of state, 1933, he put the United States in an un-neutral position in the then-brewing Second World War.

Throughout his recently published memoirs he showed that he maneuvered us at all times into a position against Germany. We could not have expected Germany, therefore, to be neutral toward us.

Elliott Roosevelt told about the drinking parties and gossip-fests in which his self-esteeming parent engaged, though the not-tolerant son did not appear to realize he was "smearing" the famous father. Elliott showed, too, in his native way, that F.D.R. was so anxious to get on the good side of Stalin that he made Churchill the butt of jokes for Stalin's amusement.

**Told on Himself**

Though Henry L. Stimson tried to picture Roosevelt in a kindly light he could not hide the duplicity of the lifelong politician. In Stimson's "On Active Service" he showed Roosevelt as a moral coward. He would agree with Stimson while the secretary of war was before him in person arguing against reducing Germany to permanent starvation. But when Stimson left and Morgenthau argued in person for the starvation plan, the old man would then "Yes" Morgenthau.

Roosevelt made up his mind and changed it at least four, and probably five, times from the inception of the Morgenthau starve-Germans plan till the plan, or a version of it, actually was put into operation by our forces entering Germany, on instructions from Roosevelt.

Stimson, like the other diary writers, exposed himself, too. Throughout the war Soviet sympathizers had the run of the War Department and worked into key positions in the Army. Intelligence policies became so "neutral" that a secret policy letter in 1944 pro-

hibited any Army action against a Communist, no matter how important his position, unless it was proved that the suspect was more loyal to the Communist Party than to the United States.

This was the famous "51-percent loyalty" letter. It furnished immunity as complete for Communists as any policy the War Department could have established. For how could you prove 51-percent loyalty?

**"Lot of Wind"**

And if you knew you would have the War Department and the President against you, you would not undertake to prove it. You would just let the Communist stay put, wearing his major's leaves or working in Army secret codes.

Stimson shows, in his memoirs, that he went along with Roosevelt in trying to brotherly-love the Soviet Union, and therefore must have been equally guilty in the formation of the "51-percent loyalty" policy.

It remained for Vinegar Joe Stilwell to cut clean of diplomatic language and let, in his wartime papers, what he thought of the man in the White House. The Far Eastern commander was taken in to some extent by pro-Soviet in our Far Eastern diplomatic staff but he was never taken in by F.D.R.

The general who "took a hell of a beating" getting out of the Burma jungle under Jap fire, accused Roosevelt of "cutting my throat." With characteristic honesty, the general sized up Roosevelt: "World's greatest strategist!... Just a lot of wind."

When the President let him down after Yalta, going back on a promise of war supplies, he wrote: "I don't care for a guy who greets me as 'Joe' and reaches for a knife when I turn around."

**Wisconsin Primary Is Regarded as Proving Use of Soldier's Name Is Not Magic by Which Votes Will Be Gotten**

By DAVID LAWRENCE

Washington, April 8—When the late Wendell Willkie failed in the Wisconsin primary in 1944, he withdrew from the pre-convention race for the Republican nomination. Wisconsin is by no means conclusive in testing candidacies but the latest primary appears to have settled one thing, anyway. It is that there is no magic in a soldier's fame which enables him to win merely by having his name and nothing else presented to the voters.

General MacArthur had powerful backing in Wisconsin—the whole La Follette strength. But it wasn't enough. The presence in Wisconsin of former Harold Stassen, of Minnesota, who campaigned actively and expressed himself on every issue of importance, was more appealing to the voters.

The primary in Wisconsin doesn't mean that Stassen is in or anywhere near a victory. But his triumph will earn him far more prestige and support than he has before the Wisconsin primary was held. It could mean that, in the end, he will be second on the Republican ticket.

The principal contenders still are Senator Taft and Governor Dewey. If neither can command a majority of the delegates, Senator Vandenberg is the logical compromise. A Vandenberg-Stassen ticket is often suggested hereabouts. In fact, some supporters of Taft say they wouldn't object to a Taft-Stassen ticket.

So far as the former governor of Minnesota is concerned, he will not look favorably on any second-place proposals. He is out to win first place. His strategy will be to emphasize that point. But the Republican National Convention is not going to be influenced by the outcome of the primaries as a whole except in an abstract sense. A vote-getting record in the primaries will be considered important in appraising a candidate's ability to attract votes in the autumn election. The next convention, think of the man who appeals to the Republican party as a whole.

At this moment, former Governor Stassen is not as strong with the type of delegates who usually

make up a majority of the Republican National Convention. He is considered far more to the "left" than Governor Dewey, and there are conservatives who want Taft because they feel Dewey is also too New Dealish. Actually, both Dewey and Stassen represent the "Liberal" wing of the Republican Party, though they are closer to the Conservative point of view than many Conservatives realize.

Anyway, the first struggle at the convention is going to be between Taft and Dewey. Both men have been cautious about international issues and have not been out-and-out internationalists such as Stassen has boldly proclaimed himself to be. If there is a chance for Stassen's delegates to influence the result of the balloting, it will be to throw their strength to someone other than either Taft or Dewey. If the opportunity arises, it is natural for the Stassen delegates to get behind Senator Vandenberg, especially if the Minnesota isn't making enough headway to win the nomination for himself.

It seems unlikely at the present time that a convention which is made up of a majority of delegates favoring the Dewey and Taft view point on international or domestic affairs would be ready to accept Stassen. Much as the Republican spokesmen try to give the impression of harmony, the party is split between those who saw the Marshall Plan as a necessity from the start and those who reluctantly agreed and really do not believe in international aid such as is envisaged in the European Recovery Plan.

Inside the Dewey camp, however, are delegates who would be inclined to go to Vandenberg rather than Taft on international issues. Inside the Taft camp are delegates who, in a choice between Dewey and Vandenberg, would choose the latter for domestic policy reasons. But the combined Taft and Dewey strength will hold the majority of the delegates and that's what will count in the final analysis. A Vandenberg-Stassen ticket looks likely to get less than 80 days before the Republican National Convention is called to order.

# Come Home, Mr. Benton

By FRANK TRIPP

Mr. Truman said that sending potential war materials to Russia was shipping to a friendly nation; that some of it had been ordered two years ago. Which made it all right, he thought.

A week before that classic alibi from our head man, a Republican Congressman said we had promised these things to Russia and we should keep our word.

My father once promised me a rifle—which he repossessed and locked up after I had shot a neighbor's cat.

A few days preceding these amazing Washington pronouncements, 13 locomotives were shipped from an Army holding point six miles from my house to be destined to Finland.

A reporter dug up the story and observed in connection with it that Finland is dangerously close to Russia both geographically and dictatorially. After the story came out it was revealed that 46 Russian type locomotives have been held up "pending investigation."

Shortly we began to hear about millions worth of war excess going to Stalin and his dominated sphere, including bomber planes, engines, bought with Americans war bond savings. Never promised, not under two-year-old orders; but with the knowledge and consent of agencies now getting set for war with those who received them.

William Benton of the State Department—one of 25,000—by Mr. Truman's appointment, heads a 29 member U. S. commission now attending a United Nations Freedom of Information Conference in Geneva, Switzerland.

This is to suggest that the commission might well have held some dress rehearsals in Washington and gone to Geneva with clean noses.

This column and plenty of other writers and journals of the supposedly free and informed American press have been pounding away for months for freedom of information at home. A kind that would let you know what is going on.

Mr. Benton's parting word, as he left for Geneva was: "The goal of the American delegation must be to lay a cornerstone for an ultimate broad world acceptance of the fact that freedom of information is the keystone of democracy and thus of peace."

I want to ask every uneasy American who reads this, just one question: Have you entrusted your ship of state seek your billions and conservation of your sons to defend you against a "friendly" nation to which they are committing to be shipped materials, and even weapons, which may be used to destroy you?

Just how far do such acts fall short of being treason-by-negligence?

Had these things been known to the people long ago they would not have happened. The damnable secrecy which shrouds and sanctifies the deeds of the clique of Washington spendthrifts

## Biggest Depression Seen by Master Of National Grange

Los Angeles, April 8 (AP)—The master of the national Grange says the nation is headed for the biggest depression ever.

Addressing a group of insurance men, Albert S. Goss, of Washington, D. C., declared yesterday:

"We are piling up a new abnormal food surplus and as soon as we stop furnishing tremendous credits to Europe we will have another collapse of our economy."

"Instead of a depression of the scope of 1929 and therefore, we will have one so tremendous that it could possibly plunge the world into one of its darkest periods. Communism could floor over the world at that time."

"The solution, as Goss sees it: Put Europe back on its feet, industrially, as well as agriculturally, and establish stable prices on the world market."

### Empire State Has Fire

New York, April 8 (AP)—A fire and explosion in an Empire State building office suite last night sent flames hurtling through 57th floor windows as shattered glass crashed to the street. Firemen, who brought the blaze under control within 20 minutes, listed the fire and blast tentatively as of suspicious origin and Fire Marshal Thomas P. Murphy began an investigation. Damage was mostly to one room of an eight-room suite occupied by Ciba Sales, Ltd., drug manufacturers and dyestuff dealers.

## First Displaced Persons Delight Aussie Minister

Geneva, Switzerland (AP)—Australia is "delighted" with the first group of former displaced persons to reach Australia as immigrants, according to a cable to the International Refugee Organization here from Arthur J. Calwell, commonwealth minister of information and immigration. The first group of 813 displaced persons to be sent to Australia under the auspices of the I.R.O. comprised Calwell to cable headquarters here that the group was "delighted with their caliber" and had been "very pleased" to learn that the I.R.O. planned to move a further 8,744 displaced persons to Australia by June, 1948.

## Tax Offices Begin Overtime Work At Albany April 10

Albany, N. Y., April 8 (AP)—State tax offices start "overtime" schedules Saturday to meet the expected pre-deadline flood of income tax returns.

"The state personal income tax and unincorporated business tax are both due by midnight Thursday, April 15."

The tax department announced yesterday that district offices would be open until 5 p. m. Saturday, 9 p. m. Monday, Tuesday and Wednesday, and at least 10 p. m. Thursday.

Temporary offices in various cities and villages will remain open until 5 p. m. Saturday, Monday and Tuesday and until 9 p. m. Wednesday and Thursday.

No state tax has been withheld from the pay of resident taxpayers, the department noted.

Returns must be filed by single persons whose 1947 net income was at least \$1,000; by married couples whose combined net income was \$2,500 or more; and by anyone whose gross income was at least \$5,000, regardless of the taxable net.

## 14,000 Circus Fans At Ringling Opening

New York, April 8 (AP)—The spotted Leopard leaped at the Hindu trainer. The girl in the gallery exclaimed an involuntary "oh!"

The trainer cracked a whip, the leopard retreated, the girl relaxed. Thus the Ringling Brothers and Barnum and Bailey Circus began its initial 1948 performance last night.

"The 'Greatest Show on Earth' drew a capacity crowd of 14,000 to Madison Square Garden. The program included a glittering assortment of high-wire artists, waltzing horses, cotton candy, Indians, pretty girls brass-band music, shiny costumes, tiny men, tall men, monkeys, jugglers, tigers, ponies and peanuts and pink lemonade."

The sad-faced, rag-clad veteran clown of the big top, Emmet Kelly, wandered about mournfully munching a head of cabbage. There were a hundred other funny men—white faced, red-faced and green-faced.

The pluckiest clown of them all last night was Lulu Adams, the only woman comic in the show, whose husband and partner for 20 years died of a heart attack during a radio interview Tuesday night.

The show is scheduled to remain here through May 9. Then it begins its country-wide road tour under the big top.

## Forest Fires Rage

Shreveport, La., April 8 (AP)—Forest fires were reported burning between 2,000 and 3,000 acres throughout Louisiana and State Forester Anne Mison described the situation as critical. Mison said that at least 200 fires were burning in the state and that his department was powerless to fight them because of insufficient manpower and inadequate equipment.

## Progress of U. S. Depends Much on Family-Church Tie

Dr. Ernest Palen Guest Speaker at Reformed Meeting to Honor Consistory

Nearly 200 members of the Fair Street Reformed Church attended the annual congregational meeting and supper Wednesday evening at which time the retiring members of the consistory were honored, the new members of the official board were welcomed and the annual budget was approved.

The Rev. Ernest R. Palen, D.D., minister at the Middle Collegiate Reformed Church in New York City, was the speaker. The Rev. Mc. Palen spoke on the importance of the family spirit in the development of America and pointed out that the future of America depends largely on a continued and renewed tie between the family and the church. A strong America was built about the family ties and if America is to remain

strong, he said, there must be a renewal of family interest and a renewed interest in the church. He spoke of the extremely high divorce rate which is sweeping the country and said that it was the duty of ministers before marrying any couple to advise them of the difficulties which lie ahead and to secure from the young couple a pledge to bring the church into their homes and to live and bring up their families in accordance with the teachings of the church.

The Rev. J. Dean Dykstra presided at the meeting and made a report of his ministry during the past year. He presented to the five retiring members of the consistory, Elder J. William Murray, Elder William G. Newkirk and Deacons C. Bingham Burnett, Addison A. Schultz and Harold V. Chayton certificates of their service in office. J. William Murray, senior elder and former vice president of the consistory, has been elected honorary elder and will continue to represent the consistory in the Classis of Ulster and as synodical delegate from the church.

A Theodore Young, chairman of the finance committee, presented the annual budget and made a report on the special improvement fund of which he has been treasurer. During the past three years a program of rebuilding and improvement has been carried out in the church, including a new heating system, at a cost of well over \$20,000. That program is now being completed, Mr. Young explained. The 1948-49 budget, which was offered for approval.

During the evening the ladies of the church served a baked ham supper and there was community singing with Mrs. William S. Eltinge, organist, presiding at the piano.

Dr. Palen was introduced by Rev. Frank B. Seeley, D.D., minister emeritus of the church, to whom Dr. Palen paid a high tribute for his work in the church. Dr. Seeley completed fifty years of service with the church on April 4.

The new members of the consistory are Elders Burton L. Thayer and Stanley J. Matthews and Deacons Boyd Miller, A. Ray Alkirk and W. E. Rylance.

## Three Persons Killed In Midwest Tornadoes

Chicago, April 8 (AP)—Three persons were killed and scores injured in tornadoes which skipped over sections of Illinois and Indiana yesterday.

Property damage was expected to run into the thousands of dol-

lars. The heaviest appeared to be in the Calumet City area on the edge of Chicago and in the Gary-Hammond, Indiana, district.

The dead in the tornadoes included two in Illinois and one in Indiana. They were Fred Engle, 55, and Ralph Labarg, 14, who were killed on farms north of Grant Park, Ill., when a twister struck in Kaneke county, about 40 miles south of Chicago. Clem Brickner, 28, Hebron, Ind., farmer, was killed when his farm home was demolished.

The property damage in the

Calumet City area in Cook county was estimated by police at \$50,000.

Another twister was reported in central Indiana, skirting the edge of Alexandria in Madison county. Tornado winds also were reported in rural sections of central Illinois, including an area near Urbana, home of the University of Illinois.

The incidence of syphilis among the natives of South Africa has been estimated at from 30 to 40 per cent.

## Communities Must Supply Names for Their Honor Rolls

The Recordable Honor Roll Committee which is compiling a roll of service men and women for a local memorial, was informed recently by state headquarters of Selective Service records that it cannot supply names for the purpose.

The list of names, currently compiled, is published weekly in the Recordable paper and the committee has announced a deadline for May 1. Contributions are also being sought and those interested are requested to forward them to Mrs. Anna Auchmoose, treasurer. The letter from the office of Selective Service records at Albany, addressed to Mrs. Stephen Haden, secretary of the Recordable committee, explains that "the local board records are not broken down by political subdivisions, and it would require a search of the records of every man in service from the local board having jurisdiction over the town of Rosendale to compile such a list as you request." The letter explains also that

"even though we were in a position to furnish this list at the present time, it would be incomplete, as there were men in the regular army, navy, marine corps, national guard and coast guard and reserve corps, as well as all women in service, who were not required to register and for whom we have no record."

The letter, signed by W. H. Boughton, state director, explained further that "a considerable number of communities have compiled such lists through publicity in the local newspapers."

"In this way," it continued, "the responsibility is placed on the service men and women or their families to supply the committee with the names of the persons who were or still are in service. The adoption of this method would free your committee from criticism in case of the omission of a name from the honor roll."

**Mystery Plane Lands**  
Frankfurt, Germany, April 8 (AP)—The United States Army kept silent today on the Czechoslovak mystery plane that landed at a Bavarian airport Tuesday. The big plane had 26 persons aboard.

But where it was coming from, where it was going and who were the passengers were not made known by the Army. The Russian-sponsored German news agency Adf said last night the plane was forced down by U. S. aircraft after getting lost en route from Prague to Bratislava in Czechoslovakia. Bavarian Military Government sources in Munich said they understood the plane came down "of its own free will." Five of those aboard were said to be Czechoslovak pilots who had been in the British Royal Air Force.

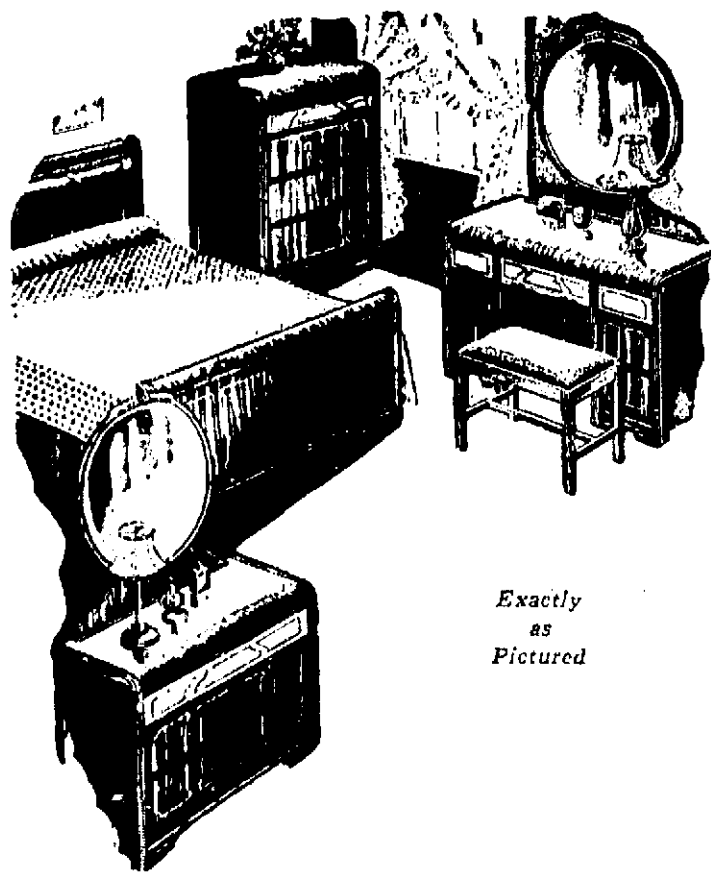

A non-American informant quoted them as saying they had fled Czechoslovakia intending to join the R.A.F. once more. But an American source said he believed "some of the people aboard may want to go back again." The passengers were taken to a camp.

**May Mean Fare Raise**  
New York, April 8 (AP)—City officials discussed a possible fare increase today as a C.I.O. union mobilized for a showdown on demands for pay boosts for 42,000 transit workers. A work stop-

page on six bus routes threatened to spread, and Mayor William O'Dwyer was headed home from California to take command in the approaching transit labor crisis. The mayor, cutting short a vacation to recuperate from a recent illness, leaves today by train and is due here Sunday. City hall conferences took up the question of whether the pressing demands by Local 100 of the Transport Workers Union (C.I.O.) would allow O'Dwyer's stand against raising the five-cent fare.

**Another Attempt**  
Chicago, April 8 (AP)—Representatives of the nation's railroad and three operating brotherhoods will meet in Chicago next Wednesday in another attempt to resolve their wage dispute and avert strike.

## Guard's Air Arm Will Operate May 1

New York, April 7 (AP)—The first fighter squadron of the Air National Guard in the New York city area will start operations May 1.

Col. Erickson S. Nichols, commanding officer of the 52nd Fighter Wing of the Guard, said recruiting for the squadron, which began yesterday, will be handled from headquarters of the wing at White Plains, N. Y.

The squadron will be headed by Lt. Col. James Averill Clark, Jr., of Old Westbury, N. Y. At first,

it will operate 25 P-47 fighters, and later will fly jet fighters.

The squadron base will be the Westchester county airport at White Plains.

The new unit, to be known as the 137th Fighter Squadron, is recruiting at present 250 enlisted men and 50 officers, including 30 pilots.

A Good Policy

THIS IS ONE KIND OF  
HOUSE INSURANCE THAT  
PAYS YOU PREMIUMS

You can insure against fire and windstorm but you can't buy a policy protecting you against paint deterioration. You can insure against the depreciation that comes with the use of cheap paint, though. You can use KEYSTONE for utmost home protection — and you can collect "premiums" in the form of dollars that infrequent repainting saves you!

## GIRL SCOUT NEWS

### Leaders' Club

Mrs. Robert Shellenberger, program chairman, has announced Mrs. Joseph Reis in charge of entertainment for the Leaders' Club meeting April 12, 8 p. m. in St. Mary's School Hall. Preceding the business meeting, Girl Scout Troop 23 of St. Peter's under the direction of Mrs. Reis, will present a shadowgraph show, "Snow White and the Seven Dwarfs," with puppets.

All leaders attending will see the operation of the show backstage so they in turn may have their troops arrange similar performances. All adult scouts in the county are invited.

### Presbyterian Troop

The third annual birthday party of Girl Scout Troops 53, 54 and 55 was held recently in Ramsey Hall, First Presbyterian Church. Troop 53 presented a play entitled "Before the Prom." Troop 54 sang a group of songs from Camp Wendy, and the Brownies gave an original play adopted from the Brownie story. The troops gave Mrs. Casper Souers a citation and gift in recognition of her outstanding services to the three troops and to Ulster County Girl Scouting in general.

### Wendy Reunion

Camp Wendy Reunion was held March 27 at the M.J.M. auditorium with 125 attending. Miss Hazel Metcalf, executive director of the Ulster County Girl Scouts, introduced 11 counselors and read notes from the others. The counselors divided according to the units in which they lived last summer and each presented a skit.

A mock track meet was held and new cheerleaders. Songs were led by Miss Janice Hyde, music consultant, assisted by Miss Agnes Thurn, both of Kingston. Girls were present from Kingston, Port Ewen, Rosendale, Tilton, Woodstock, Highland, Marlborough, Milton, Walkkill and New Paltz. Arrangements were made by the junior camp committee of the Misses Joanne Lee, Joyce Siegler, Phyllis Binder, Barbara Hulton, Peggy Beach and Alice Brooks. Camp committee members present were Mrs. Donald Tinnie, Port Ewen; Mrs. Anthony Guerrero and Mr. and Mrs. Casper Souers of Kingston.

Announcement was made of April 12, as the first date at which Ulster County Girl Scout registra-

tions will be received at county headquarters.

### Outdoor Training

"Each of the four districts under the Ulster County Girl Scout Council," said Mrs. Donald Souers, chairman of the Council Training Committee, "will select one registered Adult Scout to be sent to the National Training School at Camp Edith Macy this summer. She may be a Leader, Assistant Leader, Council or Committee Member. Interesting and stimulating courses will be given in all fields.

At the committee meeting held at her home plans for local training for the year were made. Outdoor training courses will be given in each district, completed by a practical application of information in a "book out" picnic at Camp Wendy, Walkkill, May 1.

A troop licensing course will prepare leaders who have taken the outdoor course to take their troops to Wendy for overnight trips starting in September. The course will be given May 26 in Kingston followed by a week-end conference will be held in the fall for Brownies, Intermediate and Senior Leaders throughout the county.

Special emphasis was placed by the committee on an "Outdoor Workshop" to be given at Glebe House, 81 Clinton street, Newburgh, April 15.

### But He Didn't Talk!

Baltimore, April 8 (AP)—Mrs. Elsie Young was a little hesitant to invite her unexpected caller in, since he was a horse. The animal had walked down a flight of stairs, dragging his wagon behind him, to the door of her basement apartment. She went into a quick huddle with the horse's owner, Robert Claude, and two policemen. They decided to do the courteous thing and invite the horse in. She opened both the front and rear doors and the animal was unhitched. With the aid of one who had been there before, he walked through the house and out into the back yard.

### Treated for Dog Bite

Dr. George F. Winter of 143 Green street reported to the police at 7:55 a. m. today that he had treated John Berinato of 124 Fairview avenue for a dog bite on his lower lip, which he received from his own dog.

## Synagogue News

## Printers Asked to Stop 'Wasteful Practices'

New York, April 8 (AP)—Publishers of New York city's 14 major daily newspapers have asked their union typesetters to abandon what the publishers call union-enforced "wasteful practices," unnecessary to the operation of a newspaper.

The newspapers, represented by the Publishers Association of New York city and the A.F.L. International Typographical Union's Local No. 6, currently are negotiating for a new contract to replace the one that expired March 31.

Chief among the practices the newspapers asked to have eliminated from the new contract is the so-called "hogus" clause.

The clause provides that all local advertising material must be set up from scratch in the composing room of the newspaper using it.

The practice, under the contract, must be followed even if the advertisers already have had the ads set in outside shops and have sent the newspapers matrices or photoengravings which require no additional work by newspaper compositors.

The "hogus" clause at issue has been carried in the local contract since 1907.

Union negotiators had no immediate comment on the proposal. After yesterday's session Lawrence H. Victory, president of the local said:

"We had a general discussion on the economic issues. The mere fact that we are still meeting means that we are still going along."

The union has asked a day shift scale of \$112 for a 32½-hour week instead of the present \$90 for 36½ hours. For night shift workers, the union wants a similar cut in hours and an increase from the present \$85 to \$123.20. For late night shift workers the union is demanding \$123.20 for 30 hours in

place of the present \$100 for 35 hours.

### Sap Yield Is Poor

Albany, N. Y., April 8 (AP)—Maple syrup producers are bemoaning the sudden warm weather in New York state. It has removed any hope of a normal sap yield, a survey of county Farm Bureau agents upstate indicates. Their estimates of the year's output of maple sugar and syrup range from 20 per cent of normal in Oneida county county to less than 50 per cent in the Adirondack sugar belt and western New York.

## Want Housing Action

Washington, April 8 (AP)—Backers of the Taft-Ellender-Wagner long range housing bill pressed today for early Senate action on a newly polished version of the measure. Senator Flanders (R-Vt.) told reporters he and others pushing the bill have assurances from the Republican leadership that it will be brought up for debate "at a comparatively early date." The Senate Banking Committee voted 7 to 6 late yesterday to amend the bill to bring it in line with recommendations of the House-Senate Committee on Housing.

## Prayer for World Peace Speaker at Gathering Sunday

ELLISON H. CAPERS

Ellison H. Capers, administrator of Vassar Brothers Hospital, Poughkeepsie, will be the speaker at the Kingston "Prayer for World Peace" meeting at the Kingston High School Auditorium Sunday evening, April 11 at 7:45.

The three service clubs, Lions, Rotary and Kiwanis and local clergy are cooperating to make this all-faith assembly for prayer a vital force for good.

At the meeting Sunday, Mayor Newkirk, who is honorary chairman of the Kingston "Prayer for World Peace" Committee, will present A. J. Ludlow, superintendent of schools, who will act as moderator.

Mr. Capers, the son of the late Bishop William T. Capers of the diocese of West Texas is a native of Alexandria, Va. He was educated at Williams Preparatory School and the University of Kentucky. Early in his career he managed cattle ranches in Alberta, Canada and in California. When he first came to Poughkeepsie he was executive secretary of the Frederick Hart Co., later becoming administrator of the Vassar Brothers Hospital. He was appointed chairman of the Community Chest drives in 1939 and 1940 and became vice president of the New York State War Fund in 1945.

## Seeks Atomic Power

Madras, India (AP)—India wants atomic power to meet its chronic fuel shortage. Three atomic research stations have been set up, two in Calcutta and one in Bombay, says Dr. Shantiswarup Bhattacharya, government director of scientific research.

## SOCIAL ACTIVITIES

### Youth Aliyah Reception Held by Hadassah as Part Of Fund Raising; National Director Speaks

The annual social event for Hadassah, Women's Zionist Organization, during the financial drive for Youth Aliyah was held in the form of a reception Wednesday night at the Governor Clinton Hotel. Mrs. Arthur B. Ellis, member of the national board of Hadassah and chairman of the fund raising campaign for Youth Aliyah, was the guest speaker. Mme. Jacqueline Marcourt, European pianist, entertained with several piano solos. About 200 attended.

Mrs. Nathaniel B. Gross presided. She announced this morning that approximately \$2,700 had been raised by the local chapter of Hadassah toward the goal of \$3,000. The quota for the Kingston chapter is \$2,000 plus an emergency quota of an additional 50 per cent totaling the quota of \$3,000. Mrs. Joseph Honig is chairman of the Youth Aliyah financial campaign, with Mrs. Charles Warshaw as co-chairman. The needs of the Youth Aliyah for the year will be \$30,900,000. Mrs. Ellis reported, of which \$25,000,000 has been allocated from the quota of the United Jewish appeal. The remainder is being raised through special appeals of Hadassah and a few other organizations.

Mrs. Ellis gave a review of the work of the Youth Aliyah which is concerned in bringing the homeless children from Europe to Palestine where they will be taught to be useful citizens in a new land. About 30,000 have been moved to date and at least 35,000 more are waiting shipment, she noted.

She gave a brief summary of the events concerning Palestine since the partition was declared in November and of the more recent developments at the Security Council of the U.N. where the United States has asked for a reconsideration of the problem. She spoke of the partition as coming with great joy because once again the Jews would have a homeland after wandering for more than 2,000 years. Mrs. Ellis reported that a government was in the process of formation in Tel Aviv.

She spoke of the fighting and noted that the country was not as

safe as one could hope for, the homes of the many Youth Aliyah children. But, she explained, that these children have lived through the horrors of war and at least they were being cared for and made a part of a "family like" group.

Against this background she traced some of the steps along the way for the children. All ages are now being taken which she noted will mean continued care in some cases for 17 years. The children are instructed in Jewish tradition, songs, music, and background of Palestine as well as trades. The leaders of the groups become foster parents guiding the homeless children, most of whom are orphans. The children realize that they are wanted and loved and become strongly attached to the groups.

**Musical Program**  
For a special musical program Mme. Marcourt was presented by Mrs. Herbert I. Bloom who explained that the pianist had given concerts in the European capitals before the war. She had studied in Florence, Italy, and Paris, France, and after liberation had given concerts once a week for the armed forces.

Playing with a great deal of power and beauty of tone Mme. Marcourt played the Bach Concerto Italiano, Beethoven's Moonlight Sonata, two pieces by Chopin and an encore a Sonata by Scarlatti. Mme. Marcourt will give a concert at the Crystal Room of the Governor Clinton Hotel, Thursday, April 15.

Mrs. Alfred Ronder welcomed the audience last night in the place of Mrs. Honig who was unable to be present. Mrs. Leon Greenberg led the singing with Mrs. Henry Singer at the piano.

Following the program, refreshments were served. Presiding at the tea table were Mrs. Samuel Levitus, Mrs. David Samuels, Mrs. Charles Katz and Mrs. Herman Shuck. They were assisted by Miss Shirley Levine, Lillian Leventhal, Mrs. Alfred D. Ronder and Mrs. Henry Leiner. The table was arranged with a centerpiece of pink snapdragons and white tapers.

### Firemen's Ball Band Leader Interviewed In Music Magazine

Elliott Lawrence, popular band leader, who with his ensemble played for the Firemen's Ball, March 17, at Municipal Auditorium, is interviewed in the March issue of "The Etude," music magazine. He was chosen to give the requisite qualities for a career in popular music. The article is entitled "Tops at Twenty-Two" and gives the basis of popular music as he sees it and the need for thorough preparation.

Lawrence's band, less than a year old, was voted the "Band of the Year Award," by Look Magazine last year. He gives as his chief reason for this award, "the fact that our popular music is based on classic elements of tonal color and quality. . . . I organized my band so as to include instruments common to the symphony orchestra and entirely uncommon to dance bands. . . . our band developed a more musical tone, and became capable of depicting colors, feelings, background moods and effects of the noblest classical literature."

Also in the same issue of the magazine is an interview with Erich Leinsdorf, conductor of the Rochester Philharmonic, who appeared in Kingston with this orchestra in December under the Community Concerts Association series. His article is entitled "Toward a Sounder Philosophy of Musical Education."

### Mrs. Chidester Heads Lowell Literary Club For Next Club Year

Mrs. M. Z. Chidester was elected president of the Lowell Literary Club at the final meeting of the year Tuesday afternoon with Mrs. John D. Groves, West Hurley. Mrs. George D. Long was elected vice president; Mrs. John D. Groves, secretary; and Miss Ann Quimby, treasurer.

The annual luncheon of the club will be held May 15 at the Old Fort, New Paltz, with arrangements being made by Miss May Quimby, Mrs. C. V. Gunther, Miss Flora Davison and Mrs. Merrill Johnson. A trip to the Washington's Headquarters in Newburgh will be made preceding the luncheon.

Tea was served following the meeting Tuesday with Mrs. D. L. A. Pick, retiring president, and Mrs. Chidester pouring.

# Manhattan College Five Here Tonight Against Legionnaires

## Dawkins Aces To Bolster Locals Against Jaspers

Manhattan College's famous Kelly Greens who compiled a 21-5 record against the East's greatest college squads in the season just completed, face an all-star Kingston Legionnaire squad in the final basketball attraction of the season tonight at the municipal auditorium. Game time is 9 o'clock.

Headed by their sensational center, Mike Joyce, 6 feet 7 inches, the Jaspers are expected to unleash a game featuring total basketball war via the fast break and unbridled speed.

Andy Murphy, the Legionnaire business manager, announced today that the entire Dawkins Five-

orites team would supplement the usual array of Legionnaires talent. Murphy's report indicated that both Eddie Weaver and Joe "Claw" Albany, two of the teams mainstays who had earlier declined to play, would be in uniform tonight. The club comes pretty close to being the pick of the city.

### Regular Varsity Here

Joyce, a metropolitan standout at the pivot slot, will be accompanied by the Manhattan varsity intact. The Kelly Greens will be back next year as a unit. They are largely sophomores and juniors and average about 20 years.

In addition to Joyce, the Manhattan squad will have Henry Poppe, 6 foot 2 forward who has scored 498 points in two years, 242 of them this season. He holds the all-time Manhattan individual record of 25 points in a game.

Other players are Billy Woods, 6 foot 1, Frank Hawkins, second tallest man on the squad at 6 foot 4, Back Hill, the backcourt mid-pet play maker and Jack Toomey, a set shot artist.

### Legion Has Talent

The Legionnaires will be stacked with local talent including dependable Andy Murphy, Dan McGraw, Buddy Smith, George Bloom, Tommy Maines, Charlie Bock and the entire Dawkins Favorites. With Weaver and Albany in the lineup after they had earlier declined to play, Murphy is expected to start the regular former K.H.S. five of Rienzo, Lowe or Scheffel, Weaver, Albany and Ghent.

Manhattan College, although less publicized than N.Y.U., Columbia or Fordham, had an excellent record for the season. The Jaspers tripped Fordham, St. Francis, Villanova twice, Siena, Brooklyn College and upset the West Virginia Mountaineers. They dropped a close decision to N.Y.U. in a game in which Big Mike Joyce outplayed the heralded Dolf Schayes of the Violets.

Murphy said a preliminary would be played at 7:30 for the early birds who desire good seat locations.

## Citation Touted As Derby Winner

Havre de Grace, Md., April 8 (AP)—Calumet Farm's Citation is the odds-on choice of trainers here to romp away with three-year-old honors.

Some of them believe he is the all-time great of the American turf.

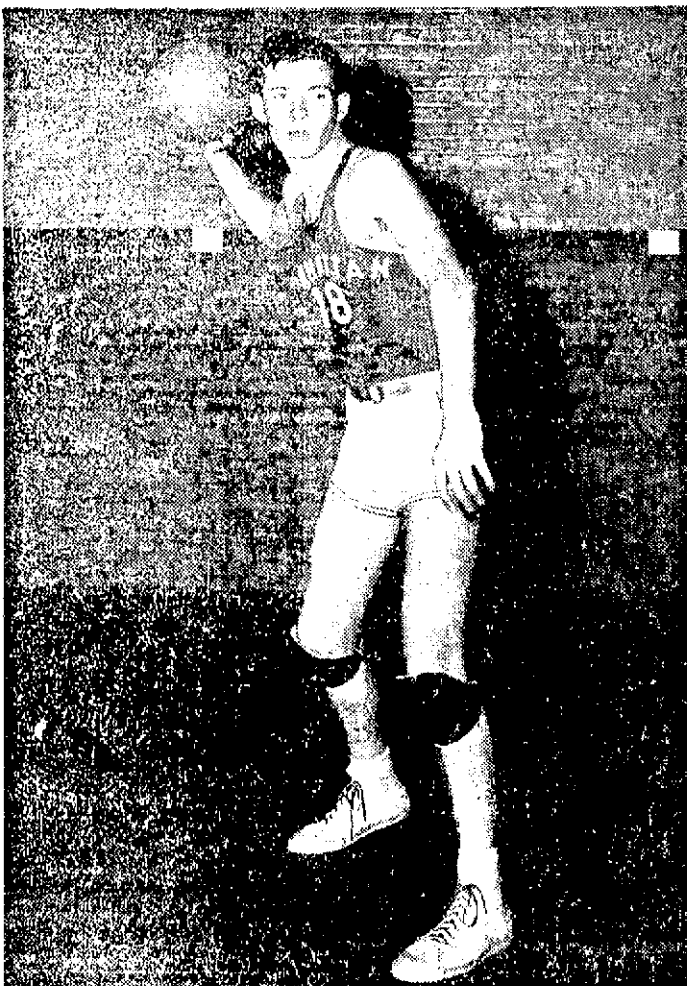

The son of Bull Lea who has won 12 of his 13 races was over-weighted by superlatives in a poll of veteran trainers.

All questioned named him as the probable Kentucky Derby winner.

Some said flatly that Citation's record to date is more impressive than Man o'War's.

The Calumet speedster will make his first start since winning

## Manhattan College Star

MIKE JOYCE

The tallest player in the Metropolitan area at 6 feet 7 inches, Joyce will lead Manhattan College against the Kingston Legion All Stars Thursday night at the municipal auditorium. Joyce did not come into prominence until mid-season until he outplayed the great Dolf Schayes of N.Y.U. and followed up with a 23-point spurge against Fordham. Mike was picked as one of the outstanding players in the recent Kansas City tournaments.

Manhattan College compiled a 21-5 record against topflight opposition, defeating such teams as

the \$50,000 Flaming Stakes in Hialeah here next Monday in the Chesapeake Trial, a six-furlong event for three-year-olds.

Citation began his spectacular career here last April 22, winning a four-and-a-half furlong affair for maidens.

Victory after victory followed. He won \$155,860 as a two-year-old and chalked up four victories to date as a three-year-old.

### Keiser in Goodall

New York, April 8 (AP)—Herbert Keiser of Akron, Ohio, a member of the 1947 Ryder Cup team, has accepted an invitation to play in the Goodall Round Robin Golf Tournament at New Rochelle, N. Y., May 6 to 9. Tournament Supervisor Harold McSpaden said today.

## Brooks-Quick Billiard Duel Scheduled Tonight

The 1948 city pocket billiard title can be decided tonight at the Kaslich Parlor, when undefeated Dave Brooks tangles with defending champion, Clifton Quick.

Match time is 7:30 p. m. and Nick Kaslich, sponsor of the tournament, predicts an all-time record attendance.

Brooks, undefeated in six starts, can clinch the title by beating Quick, who was the victim of an upset by Harry Markle in eight tournament starts.

The "Golden Boy" who has won seven straight matches but has had trouble with some opponents, rules a slight favorite.

### Good Match Expected

Billiard observers predict a ding-dong battle and point to Quick's stunning upset against his brother, Harold, in last year's finals as a

warning against over optimism among the Brooks supporters. Quick is a steady, cautious methodical player who is long on safety and tight play. Brooks is the exact opposite the master stylist with a flourish for high runs. These contrasting types make tonight's match extremely interesting.

## Coley Wallace Kayoes Foe, Wins National A.A.U. Title

Boston, April 8 (AP)—The exceptionally well-drilled metropolitan eight-man boxing team from the New York district included three 1948 National A.A.U. boxing champions and a runner-up today.

A pair of lusty Californian battlers also boasted about retaining their previous titles.

The successful defending champions were light heavyweight Grant Butcher, a University of San Francisco student, and 135-pounder Johnny Gonsalves of Oakland, Calif.

Gonsalves also was voted the outstanding competitor in the three-nights tournament which ran for more than 26 hours, drew a starting field of 168 from 29 widely scattered A.A.U. districts, including the Hawaiian Islands.

Butcher retained his 1947 laurels by outpunching Shirley Pemberton, a clever Philadelphia Negro, during three rounds. Gonsalves became a titlist for the second straight year by besting hard-punching Jimmy Winder of Pleasantville, N. J.

### Coley Wallace Wins

The most spectacular of the New York victors was Negro heavyweight Coley Wallace, who belted out the 240-pound Bill Bangert of St. Louis, in 2:37 of the second round.

The other New York team winners also are Negroes, 160-pound Raymond Bryan, who decisioned Joe Jarmad of Dayton, O., in their finale, and Bill Morgan of Newark, N. J., who gained the 118-pound crown by out-battling Charlie Kaubane, the only Hawaiian to reach the final round.

The Metropolitan forces also were represented by Albert Hunter, who lost a divided decision to Teddy Fitzpaldio of Warren, Ohio, in the 126-pounds championship tilt.

Erik Sodano, 17-year-old Philadelphia schoolboy, gave the east a fourth championship by out-punching Walter Rawles of Norfolk, Va., for the 112-pound honors.

A second mid-westerner entered the championship ranks when Eugene Linscott of Grand Rapids, Mich., gained the 147-pounds title during lively two-fisted sets with Tony Dipolini of Buffalo, N. Y.

In former Olympic years, National A.A.U. boxing titlists qualified for international competition practically automatically.

The 1948 tournament winners are denied such recognition. They

## Wiltwyck Course Opens Saturday

After a period of extensive preparations on the complete course, the Wiltwyck Golf Club Inc., Hurley avenue, will open for the new season Saturday morning, Tommy Danaher announced today.

"Due to the severe winter," Danaher stated, "we have been held up somewhat in making preparations for the new season, but by Saturday everything will be in readiness."

Bridgeport, Conn. — Jimmy Carole, 202½, New York, out-pointed Eldridge Eatman, 195, Norwalk, 10.

## Five Veterans Top Field In Masters Golf Tourney

Augusta, Ga., April 8 (AP)—Five veterans were listed as favorites as the twelfth annual Masters Golf Tournament began today.

They are Bobby Locke, the South African star, Ben Hogan, Lloyd Mangrum, Byron Nelson and Jimmy Demaret.

Demaret who first won this 72-hole event in 1947 is the defending champion.

The condition of the 6,800-yard National Country Club course favors the longer hitters because of the soggy fairways produced by recent abnormal rains.

The final round is set for Sunday. Top money in the \$10,000 event is \$2,000.

## Toronto Wins, 5-3

Toronto, April 8 (AP)—The Toronto Maple Leafs have drawn first blood in their battle with the Detroit Red Wings for the coveted Stanley Cup.

The Leafs, defending champions and National Hockey League pennant winners, checked the Wings 5-3, here last night in the opening game of the best four-out-of-seven final round series.

After Detroit took an early first period lead the Leafs dumped home three goals before the frame ended and clinched matters with two more in the second period.

### McKENNEY ON BRIDGE

#### The Finesse, Hard Beginner Problem

By WILLIAM E. MCKENNEY  
America's Card Authority  
Written for NEA Service  
For the second time I am taking a Lesson Hand from Mary Flasher's new book, "You Too Can Play Bridge." Mrs. Flasher, bridge editor of the Columbus (O.) Citizen, has packed more bridge into 40 pages than one would think possible. In today's hand she uses an expression I never heard before in 20 years of writing bridge. To lead the fourth best of our longest and strongest suit is familiar practice to all of us, but in connection with West's opening lead Mrs. Flasher says, "West led his heart three—his fourth down," instead of "fourth best."

East, so that when the diamond finesse is taken, East cannot return hearts. Next, I like her description of the finesse. She says "The finesse can probably be best understood by observing the diamond suit in this hand. The jack is led and when West plays small, dummy also plays small. If West had held the king and had not covered the jack, another diamond would be led. If the king still does not come from West, the ten in dum-

my is played—followed by the ace. In this case, however, East held the king and it captured declarer's jack, but now East cannot make any return to defeat the three no trump contract. Declarer has three spade tricks, one heart trick, four diamond tricks and one club trick."

#### Says Teachers Have Big Chance with Merit System

Rochester, N. Y., April 8 (AP)—The New York State Commissioner of Education wants school administrators to help make the state's merit promotion salary program work. Dr. Francis T. Spaulding told the Rochester School Administrators' Council last night the program is "a unique opportunity" for teachers to add to their professional stature. The law, enacted by the 1947 legislature, provides for automatic salary increases and merit increases beyond the automatic minimums to selected teachers. Spaulding said "if we do not make it work, even though we succeed in using it to gain higher average salaries for teachers in general, we shall have lost the most favorable opportunity we ever had to make something

more out of teaching than an under-valued and under-paid profession, offering security of position as its chief tangible reward." Spaulding said school administrators "can do at least as much as any other single group either to make the plan abortive or to use it to the fullest possible advantage."

## Store Is Purchased

Bridgeport, Conn., April 8 (AP)—Purchase of the D. M. Reed Company, large Bridgeport department store, by three New York businessmen was announced here late yesterday. The purchasers are Sidney Rosenthal, former vice-president of Bloomingdale's; Milton Mandel, former president of Wanamaker's; and George Rosenberg, who was associated with Mandel in ownership of Wanamaker's. The new corporation will take possession on Monday. According to yesterday's announcement, the company's gross business for last year was approximately \$7,000,000.

## Reds, Satellites Get Most Goods From U. S. Zone

Berlin, April 8 (AP)—Russia and her satellites have grabbed the lion's share of industrial reparations from the U. S. zone of Germany, Gen. Lucius D. Clay said in his monthly report today.

The American military governor said the U.S.S.R. and Czechoslovakia, Yugoslavia, Poland and Albania, have received 63 per cent of the reparations. He based his reckoning in monetary value.

Clay said that in the first two years of the reparations program these countries received from American occupation zone factories 74,783,297 marks worth of equipment. The prewar mark was valued at 40 cents.

This was nearly twice as much as was delivered to 12 western allied nations, which up to March 1 had received equipment with a combined value of 42,412,313 marks.

Russia alone collected about 30 per cent of the total—36,113,245 marks worth.

Biggest receivers among the western nations were France, with 22,546,940 marks worth.

The U. S. share was the smallest of any—174,659 marks.
